

## Diaphragm Valve, Metal

### Construction

The GEMÜ 601, 612 and 673 manually operated diaphragm valves have a temperature resistant plastic handwheel, GEMÜ 602 has a stainless steel handwheel. Bonnet and internals are made all of stainless steel. An integral optical position indicator and a seal adjuster to increase service life of the diaphragm are included as standard.

### Features

- Suitable for inert and corrosive\* liquid and gaseous media
- Chemical resistance of bonnet
- CIP/SIP cleaning and sterilizing capabilities
- Autoclave capability
- Insensitive to particulate media
- Valve body and diaphragm available in various materials and designs
- Compact design (ideal when space is at a premium)
- Stepless minimum flow regulation due to seal adjuster
- Versions according to ATEX on request

### Advantages

- Hermetic separation between medium and actuator
- Optional flow direction, will seal in either flow direction up to full operating pressure
- Optional mounting position
- Long service life of the diaphragm due to patented seal adjuster (US-Pat. 5 377 956)
- Valve body also available in multi-port designs (M-block and T-body) or as tank bottom valve body

\*see information on working medium on page 2

## Technical data

### Working medium

Corrosive, inert, gaseous and liquid media which have no negative impact on the physical and chemical properties of the body and diaphragm material.

### Operating temperature

Liquids	max. 90 °C
Steam	max. 150 °C
(dependent on diaphragm material)	

### Ambient conditions

Max. ambient temperature 60 °C

Type	Diaphragm size	Nominal size DN	Max. operating pressure [bar]	
			EPDM	PTFE
GEMÜ 601/602	8	4, 6, 8, 10, 15	10	6
GEMÜ 612	10	10, 12, 15, 20	10	6
GEMÜ 673	25	15, 20, 25	10	6
	40	32, 40	10	6
	50	50	10	6

All pressures are gauge pressures. Operating pressure values were determined with static operating pressure applied on one side of a closed valve. Sealing at the valve seat and atmospheric sealing is ensured for the given values. Information on operating pressures applied on both sides and for high purity media on request.

### Kv values [m<sup>3</sup>/h]
